In the Truth.

A permanent Orchestra is the pride of every town community.

To send to Cincinnati or Lexington every time music is wanted is not at all creditable to town.

Reindeer, imported music is a very expensive luxury.

Our Opera-house, this coming winter, more than ever, will need the services of an Orchestra.

Show your interest and when the Committee calls purchase a ticket to the largest reception held in Mayville for months. Neptun Hall, Thursday night, July 13, 7 p. m.

Electric Park.

Last night was marvellous night, but owing to the inclement weather there was only one amateur present to compete for the watch.

The Misses Hanson. The competitors were declared off until next Friday night.

Tonight will close one of the most successful weeks this popular resort has enjoyed since its launch for public favors, that is as far as the Littlefield and Lorraine and are concerned. They will make their last appearance tonight, and those of our people who have not seen them this week should not fail to go out tonight, as they are worth ten times as much as the price of admission.

The small sum of 10 cents is all that it takes to get you out there and back and admit you to the show.

Go out sure tonight.

INCREASED BUSINESS.

Earnings of the C. and O. Railway at Mayville - A Strong Contrast.

The earnings of transportation lines are a mighty good index to the business of a city.

Even with its present crippled facilities for handling freight shipments, the C. and O. makes a handsome showing; but efforts are now being made to secure additional switches, further increase the capacity of the road, and it is believed these efforts will be rewarded by success.

Below THE LEDGER gives the earnings at this point for the past two years:

Year ending June 30, 1898.....\$5,952.11

Year ending June 30, 1899.....\$7,347.51

Increase.....\$1,395.40

For the year ending June 30th, 1897, the last year when there was a "Joint Agent" for the C. and O. and L. and N., the earnings of the C. and O. were only \$4,950.75.

In this business, there is much more good for Mayville than appears upon the surface.

Beyond the rapid transit afforded our merchants in the fact that the C. and O. is the heaviest taxpayer in the county, and that it spends right in Mayville nearly \$20,000 a year for salaries of its employees.

FOR BARGAIN BUYERS.

WE HAVE A PRETTY LINE OF

French

Challies!

25 Pieces in all, Which We Have

Reduced From 50c.

a Yard to 25c.

Why? Because challies do not "take" in Mayville. Throughout the summer in city stores challies are as staple as gingham. Fashion never obliterated them from her book, and why we do not wear them here is inexplicable. They are light in weight, wear well and emerge from a careful bath as fresh as dew. These challies are all wool, 32 inches wide, fine in every detail. There are rich creamy surfaces, flower stained in various shades. Some pretty figured grays and several cool looking tans. A dainty coral color with black figures and a small pattern of red with floral design.

At 25c, a yard what cheaper dress could you have for calling and Church wear now and house and party use throughout the winter? Challies have many tempting possibilities for children's clothes and nothing daintier for mothers and tea gowns could be pictured. See window display. We are sure the low price combined with such prettiness and utility will quickly sell the goods.

COUNTY COURT DAY.

Tollgates Are Again Off the Turnpikes and a Big Attendance Is Expected.

Monday, July 10th, is again Mason County Court Day.

Last month the attendance at the large stock sales fell below the average, owing to the fact that after a year of free travel tollgates had again been raised on the principal turnpikes leading into the city, and farmers, rather than pay the toll, went in other directions.

In the past week, so the free turnpike question has forever been settled, and a good way of celebrating the event is to make the July Court day a summer.

To Ohio visitors, on foot, free terrace is furnished.

Mayville is without doubt one of the best sporting points on the Ohio river, and all farm products, in vegetables and animals, find a ready market here at the very best prices.

Deafness cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

RIVER IS FALLING

The Flood Situation in the Brazos Valley, Texas, is Rapidly Improving.

RELIEF COMMITTEES WELL ORGANIZED

Precautions Are Being Taken So That Only the Deserving Ones Get the Government Rations.

It is thought it is not too late to plant cotton, but the people have neither seed nor money—John N. Grogan's Hard Luck

GALVESTON, Tex., July 8.—The situation in the Brazos valley is rapidly improving. The river is falling. There is rumor that five lives were lost near Bartlett, in Fort Bend county, but the rumor lacks confirmation. The report sent out Wednesday from Brookshire, Waller county, that two lives were lost there now appear to be without error. The river is supposed to have been drowned persist in making their reappearance. Relief committees are now well organized. This flood is the most terrible that has ever been known in this state. In fact it looks as if there had been a perfect watershed for 100 miles along the Brazos river. One witness says the floods came in a wave that was nearly six feet high.

At Brookshire the relief committee have opened a commissary and issued a half ration per capita. They have taken precautions, so that only the deserving shall get these rations, and therefore, they issue to the planter for all the tenants he had when the flood came. Those who owned their own farms and lost everything, as is the case with most of them, are allowed to draw their rations direct.

D. S. Caze, a prominent citizen at Brookshire, thinks it is not too late to plant cotton, and he has ordered a car load of cotton seed, which he proposes to give to all who will plant and undertake to cultivate the crop. He says moreover, that crops of cotton, sorghum, kafir corn, June corn and pinto beans may be raised on the next rainy season, but they have neither seed nor money, and he suggested that contributions of seed would help them. These crops would enable them to live until the beginning of next year, when they would be able to draw supplies from the merchant from the prospective crop. If the people do not at least attempt to raise another crop this year Mr. Caze does not see anything ahead but starvation. There are rats as numerous enough at Brookshire to last for a week or more. Along the Brazos alone it is estimated that more than 6,000 Negroes have lost everything. The loss by drowned horses, mules and cattle is something enormous.

An old Negro was found Friday at Duke, lashed to a tree. The rescuing party took him aboard of a boat. He collapsed from exhaustion, fell overboard and was drowned. Miscellaneous reports one drowning, a Negro named Will Williams.

Mr. T. W. House, of Houston, Friday afternoon received a message from Mr. Vinson, manager of his Arovia plantation worked by convicts. Upon being asked as to the situation and the outlook Mr. House said: "I don't believe there will be any loss of life of man or beast and I believe we can make something at least out of the ugly situation. We have three places under water in the flood, one at Brookshire, Fulshear and Arcola. There are about 275 people on there, and I propose to take care of them for this year. If necessary, but I have arranged for cotton seed and have ordered the managers of these places to go planting cotton as soon as the water recedes."

In Brazoria county it is claimed three persons are drowned at Sandy Point while in back water.

Dropped Dead on the Street.

ATLANTA, Ga., July 8.—Mrs. L. A. Rice, of San Antonio, Tex., dropped dead at noon Friday at the corner of Baker and Ivy streets. The cause of her death was heart failure. Mrs. Rice was the niece of President Tyler and a first cousin of Gen. Robert E. Lee. She was a sister of Judge John A. James, chief justice of the supreme court of Texas.

Was a Wrecked Assassin.

BELLEVILLE, July 8.—The man who attempted to assassinate former King Minnie here Thursday evening, firing four shots from a revolver at him and wounding him slightly in the back, has been captured by the municipality. It is supposed he was hired by an enemy of Minnie.

Volunteers Will Be Equipped as the Regulars Are.

WASHINGTON, July 8.—The 10 regiments of volunteers will be equipped throughout as are the regulars. The ordnance department has on hand a sufficient supply of Krup-Jorgensen rifles and other arms to equip the regiments.

Reward for Distinguished Service.

WASHINGTON, July 8.—Capt. Breerton, of the 9th infantry, who distinguished himself during the Santiago campaign, is to be appointed to the colonelcy of one of the volunteer regiments.

PEACE CONGRESS.

The Proposed Convention in Regard to the Arbitration of National Disputes.

MEDIATION OF FRIENDLY POWERS.

Before Appealing to Arms Contending States Must Submit Their Differences to the Mediators.

Good Offices and Mediation Have the Exclusive Character of Counsel and Are Avoid of Obligatory Force—Other Provisions

THE HAGUE, July 8.—The proposed convention of the peace congress in regard to arbitration of national disputes is as follows:

Article I. With the object of preventing as far as possible recourse to force in international relations, the signatory powers agree to use all endeavors to effect by pacific means a settlement of the differences which may arise among them.

Article 2. The signatory powers declare that in the event of serious difference or conflict they will, before appealing to arms, have recourse, so far as circumstances permit, to the good offices or mediation of one or several friendly powers.

Article 3. Independently of this, the signatory powers deem it useful that several of the powers not committed to the arbitration scheme shall on their own initiative, numbers, and circumstances permit, their good offices for mediation to the contending states. The right of offering their good offices belongs to powers not connected with the arbitration scheme, and which may have arisen between contending states. The right of offering their good offices belongs to powers not connected with the arbitration scheme, and which may have arisen between contending states.

Article 4. The part of mediator consists in reconciling conflicting claims and in settling the causes of hostilities, which act can never be regarded as an unfriendly act.

Article 5. The functions of mediators cease from the moment it may be stated by one of the contending parties or by the mediator himself that the compromise or basis of an amicable understanding proposed by him has not been accepted.

Article 6. Good offices and mediation have the exclusive character of counsel and are devoid of obligatory force.

Article 7. The acceptance of mediation, unless otherwise stipulated, may have the effect of interrupting the obligation of preparing for war. If the acceptance supersedes after the opening of hostilities it shall not interrupt, unless by a convention of a contrary tenor, military operations that may be necessary.

Article 8. The signatory powers agree in recommending the application of special mediation in the event of threatened interruption of peace between neutral powers. The powers may each choose a power to which they will entrust the mission of entering into a negotiation with a power chosen by the other side with the object of preventing a rupture of pacific relations, or, in the event of hostilities, of restoring peace.

Article 9 to 14 provide for the institution of an international commission of inquiry for the verification of facts in cases of minor disputes not affecting the vital interests or honor of states, but impossible of settlement by ordinary diplomacy. The report of an inquiry commission will not form an arbitral judgment, leaving the contending parties full liberty to either conclude an amicable arrangement on the basis of the report or have recourse ultimately to mediation or arbitration.

MANY APPLICATIONS.

Almost Every One Who Served in the War in Cuba Has Offered His Services in the Philippine Campaign.

WASHINGTON, July 8.—It was stated at the ordnance department Friday that almost every officer who served in the army during the war with Spain, and who has been honorably mustered out, has again offered his services to meet the needs of the Philippine campaign.

Altogether not less than 15,000 applications for commissions in the new volunteer army now forming have been received at the war department and have been placed in the hands of the adjutant general for consideration.

John R. McLean Will Accept.

WASHINGTON, July 8.—John R. McLean questioned Friday as to whether he would be a candidate for the Ohio gubernatorial nomination made this statement: "If the democrats of Ohio give me the nomination and my friends ask me to take it I will accept." Further than this he declined to talk.

Toss Off His Pace.

MILWAUKEE, Wis., July 8.—Carl, the ten-year-old son of John Hard, of Killebuck, found a dynamite cartridge and tried to explode it by pounding it with a hammer, when it burst, striking him in the back, tearing off both ears and his face and both eyes and fatally injuring the boy.

WANT OUR GOODS.

Every Part of the World Evinces an Increased Desire for American Products.

EUROPE'S GOOD BREADSTUFF SUPPLY.

This Alone Has Failed to Increase the Amount of Money Paid for Our Products There.

In Asia, Africa, South America, Mexico, Canada, Hawaiian Islands and Oceania Our Exports Have Increased in Value and Quantity since 1898.

WASHINGTON, July 8.—A study of details of exports for the fiscal year just ended, the bureau of statistics says, shows that every part of the world has evinced an increased desire for American products. Europe is the only part of the world which has failed to increase the amount of money paid to us for our products, and this, the bureau says, is due solely to the plentiful supply of breadstuffs in that part of the world in 1898, and the consequent decrease in price paid per bushel.

To Asia, to Africa, to South America, to Mexico, to Canada and to the Hawaiian Islands and Oceania our exports have increased in quantity and value as compared with the phenomenal year 1898.

To British North America the exports in the fiscal year 1899 will be in round numbers \$90,000,000, against \$85,000,000 last year; to Mexico about \$25,000,000, against \$21,200,000 last year; to Cuba about \$19,000,000, against \$9,500,000 last year; to Porto Rico \$2,500,000, against \$1,500,000 in 1898, and to the entire West Indies group \$35,000,000 in round numbers, against \$26,430,000 last year.

South America, to which our sales in the past have not shown as rapid an increase as those to other parts of the world, shows a slight gain in 1899, and will reach a total of over \$25,000,000, against \$18,821,000 last year. To Asia the exports of the year will be about \$7,000,000, against \$4,844,000 last year. China showing an increase of over 33 per cent, and Hong Kong about an equal increase, while Japan, which purchased enormous quantities of raw cotton and various manufactured goods from us last year, has somewhat decreased her purchases in those lines, so that the total to Japan during the year will show a reduction of over \$5,000,000 compared with 1898, but an increase of \$3,000,000 compared with 1897.

Oceania shows remarkable gains, the total for the year being likely to exceed \$50,000,000, against \$21,000,000 last year, and to Africa the exports of the year are in excess of those of any preceding year.

The value of exports to the United Kingdom for the year will be more than \$25,000,000 below that of last year, while the reduction in the value of our exports to France will be more than \$20,000,000, to Belgium about \$1,000,000, and to Spain about \$2,000,000. This reduction occurs almost entirely in food products, and especially breadstuffs.

The reduction in value of wheat sent to Europe in 11 months of 1899 compared with the corresponding months of 1898, is in round numbers \$18,000,000. The United Kingdom has also reduced her purchases of live cattle about \$7,000,000 in the 11 months of 1899, compared with corresponding months of 1898, due, it is believed, largely to an increase in prices demanded by the dealers of the United States.

THE GEN. LUNA ASSASSINS.

They Were Tried and Acquitted on the Ground of Self-Defense. His death strengthens Aguinaldo's Role.

MANILA, July 8.—The trial at Cabanatuan of the slayers of Gen. Luna, the Filipino leader who was assassinated by the guard of Aguinaldo's residence, is ended. The accused were acquitted on the ground of self-defense. The testimony showed there was a conspiracy on the part of Luna and other officers to kill Aguinaldo and make Luna dictator.

Luna's death seems to have strengthened Aguinaldo's leadership for the time. Luna's supporters are now outwardly loyal to Aguinaldo.

Will Be Given a Fair Trial.

PANAMA, July 8.—The Droits de l'Homme says that War Minister Gallifet lately told M. Lavielle, the national deputy, that the Benazet case, which would be conducted with absolute impartiality. "Once a decision is given by the court," he added, "I will see that it is respected, by cannon shots, if necessary."

Writing Paper Combos.

New York, July 8.—The official list of the constituent companies of the fine writing paper trust, just organized with \$12,000,000 capital, includes the Harding Paper Co., of Franklin, O. Twenty-seven mills or 70 per cent of the total, are controlled by the trust.

Killed by a Baseball.

STOUC FALLS, N. D., July 8.—Lorent Hixwick, aged 18, was found dead Thursday night. His death resulted from being struck on the head by a baseball July 4, and he had been missing since then.

HON. GEORGE W. JULIAN DEAD.

The Ex-Congressman Expired at His Home in Irvington, Near Indianapolis, Ind., Friday Morning.

INDIANAPOLIS, Ind., July 8.—George W. Julian died at his home in Irvington, at 11 o'clock Friday morning. His daughter, Mrs. Grace Julian Clarke; his son, Paul, and Dr. Thomas L. Thompson, family physician, were present when he died. Mr. Julian began to fail last Sunday but his illness was not marked until 4 o'clock Thursday when he suffered a stroke of apoplexy. He seemed to recognize the doctor and members of the family after he was stricken, but since 6 o'clock Thursday night he had been in a comatose condition. He died peacefully without recovering consciousness or apparently without suffering.

George W. Julian was born in Wayne county, Indiana, near Centerville, in 1817. His early life was spent on the farm. His political career began in 1840. From 1848 to 1852 he was clerk of the Indiana legislature for Clay and Frelinghuysen. It was in this year that his abolition belief took root and became the mainspring of his political career. In 1852 he was elected to the legislature from his native county. When Taylor was nominated Julian boldly announced that he could not support the ticket, and that he would support Fremont. In May, 1856, he was chosen a delegate to the Buffalo convention and an elector of the Fourth congressional district of Indiana.

In 1859 he was a candidate for the vice presidency on the free soil ticket, and was a delegate to the first republican convention at Pittsburgh in 1859. He served in congress many years from the "Burrard district." In May, 1861, he was appointed surveyor general of New Mexico.

TROOPS WERE ORDERED OUT.

As Before Gov. Bradley Revoked the Contingent-Exaggerated Stories of a Manchester Shooting Went Out.

FRANKFORT, Ky., July 8.—Gov. Bradley wrote out an order Friday night to send 200 soldiers to Clay county to suppress another supposed outbreak, but before the ink was hardly dry he was informed that he had again been imposed upon by some extortionate persons. The order, which was issued, and the soldiers were sent, and the order was withdrawn. He was telegraphed that Deputy Sheriff Stubbfield, of Clay county, had been killed by one Smith; that the Smiths and Jones got into the free school, and that the soldiers were ordered to the Whites. The governor wired the telegraph agent at London to know if the message was genuine and received an affirmative reply. He then wired Judge Boyd, R. M. Jackson and other reliable people asking if the news could be verified.

While waiting for replies he sent messages for a special train to carry the troops to Frankfort. Later the London militia companies to London Friday night, and all the companies were ordered to be ready to march by 9 o'clock Friday night. By the time everything was in readiness messages from Judge Boyd, Jackson and others told the governor that the story had been greatly exaggerated, that while attempting to make an arrest Deputy Sheriff Stubbfield was shot and wounded by Matt Smith, but there was no excitement over the affair and no sort of trouble was expected.

The order for troops was at once countermanded, and the second attempt to have troops sent failed.
